● Year 1 to Final Year

● NEET-PG & FMGE aligned

● App + Web LMS

From a Doctor, to a Doctor.

StudyMBBS is built by the team at StudyMEDIC, an internationally reputed Med-EdTech firm that has spent more than a decade preparing doctors for the world's toughest postgraduate exams: Royal College memberships, clinical fellowships and licensing exams. That same clinical expertise now starts where every doctor starts: MBBS.

Dr. Sowmya N S

Chief Mentor & COO, StudyMEDIC

MBBS · DGO · MRCOG (UK) · MRCPI (Ireland)
EFOG-EBCOG · FMAS · PGDUS · IBCLC

Global Achievers Award recipient

“

From a doctor, to a doctor.

For over a decade, I have mentored doctors through MRCOG and other Royal College exams. The ones who succeed have one thing in common: strong foundations, built early.

StudyMBBS brings that same approach to your MBBS years. Learn each subject the right way while you study it in college, revise it steadily, and you will walk into NEET-PG or FMGE prepared, not panicked.

Don't prepare before the exam. Plan and prepare now. We'll be with you every step of the way.

Dr. Sowmya N S

- Life member: MICO, FOGSI, BSOG, WALS
- Member: ILCA, ALPI
- Chairperson, Hospital Infection Control Committee
- Global Achievers Award, Indian Achievers Forum

NEET-PG and FMGE test all 19 subjects. Why leave them all for the last year?

Preparing before the exam

- ✗ Five years of subjects crammed into a few months
- ✗ Year-1 basics forgotten by the time you need them
- ✗ Backlogs pile up alongside internship duties
- ✗ High stress, low retention, repeat attempts

Planning & preparing with StudyMBBS

- ✓ Learn each subject for the exam while you study it in college
- ✓ Revise continuously with structured PYQ's & spaced MCQs and tests
- ✓ Track progress every week on the app
- ✓ Walk into NEET-PG / FMGE revision-ready

HOW IT WORKS

Your MBBS, planned from Day 1 to the exam hall

Every year ends with a year-wise grand test, so you know where you stand before you move on.

Everything you need to learn, practise and revise

Expert video lectures

Subject-wise lectures mapped to your university syllabus and exam pattern.

Structured PYQs + MCQs

Previous-year questions by subject, topic and year, plus exam-pattern MCQs with explanations.

Mock & grand tests

Timed tests that simulate the real NEET-PG and FMGE experience.

Performance analytics

See strengths, weak topics and your rank trend after every test.

Smart study planner

A daily plan that fits around college exams, postings and holidays.

App + Web LMS

Start on the phone, continue on the laptop. Your progress syncs.

Every past question, in the order you study

Previous-year questions are arranged subject by subject and topic by topic, so you practise them the week you learn the chapter, not in a panic before the exam.

University PYQs

MBBS professional-exam questions, subject-wise and chapter-wise, so you score in college exams too.

NEET-PG & FMGE PYQs

Recall-based previous-year questions, topic-tagged, with detailed explanations and high-yield notes.

Exam-pattern MCQs

Daily MCQs, clinical vignettes and image-based questions that build speed and accuracy.

HOW EVERY QUESTION IS STRUCTURED

Filter any way: by subject, topic, year or exam. Mark, bookmark and re-attempt wrong answers.

PROGRAMS

Pick your year. We'll plan the rest.
